- + An attractive package that includes equity shareholding, either immediately, or after a year and depending on performance – and/or team/business brought in

WHY +RASMUSSEN?

Finally, we believe in “young” talent and promote our youngsters fast – i.e. deep pool swimming with support and thus hope that even if you can’t tick all the boxes above, that you’d reach out to us IF you think this is going to be you in one or 2 years. In essence, age, sex, etc. will never be a hindrance for us to consider you – we are a house of talent and would like to hear from anyone who believe that they fit the things we are looking for as compared to what you may be able to prove having done.
